

Trees, Hedgerows, Woodlands...have your say!

This your chance to have a say on everything trees and hedgerows for the county. Herefordshire Council is working with LUC to facilitate a Tree Hedgerow and Woodland Strategy for the county (h-THaWS) and has launched a 4 week online public consultation. This is your chance to respond personally or on behalf of a community or group and help guide the production of this strategy for the county's treescape, including actions that everyone can help deliver. What makes trees and hedgerows important to you? What is already happening locally? What type of tree-hedgerow schemes would you support? How do you see the future treescape of the county urban & rural? We need your thoughts, ideas and views. The aim is to have a final h-THaWS launched in Spring 2025 helping support an increase in Trees and Hedgerows across the county and encouraging better management of those we already have.

Further information and the online survey can be found at [Herefordshire Tree, Hedgerow and Woodland Strategy \(h-THaWS\)](#) or you can email us at hthaws@landuse.co.uk

The consultation and survey will close on **8th December 2024** so please don't delay having your say.
